GUNA REGIONAL SUMMIT AGENDA

Regional Summits/Group/Committees will not “pass” or “defeat” resolutions by voting them “favorable” or “unfavorable.” Instead, each summit will hear presentations and debate on all assigned resolutions. Then, the summits will rank the resolutions (by tally of individual nation members' rankings), with number one being poor, to number five being excellent. Summit members will be asked to rank resolutions based on the following five criteria: (for the purposes of virtual summits, amendments are not in order)

- 1) Debatability
- 2) Creativity
- 3) Feasibility
- 4) International Importance
- 5) Preparation and Presentation

Resolutions will then be considered by the General Assembly in the order that they were ranked in Summits, with each Summits' number one resolution being considered first, then number two, etc.

CALL TO ORDER – Summit Chair will call to order and appoint a clerk to assist with the handling of resolutions.

ANNOUNCEMENT OF RESOLUTIONS TO BE DISCUSSED – Chair announces which resolutions will be discussed during the meeting.

SPONSOR PRESENTS RESOLUTION – Chair calls for resolution sponsor to present resolution. Sponsor(s) will have five (5) minutes, or such time as determined by the chair for opening presentation.

CHAIR OPENS FLOOR FOR OPEN DISCUSSION OF RESOLUTION – Chair will open for discussion of resolution alternating favorable and unfavorable comments. Delegates may also ask questions of the resolution sponsor(s) at this time.

SPONSOR SUMMATION – Sponsor has three (3) minutes, or such time as the chair deems necessary for a brief summation to clarify any issues brought up in the summits debate.

EACH RESOLUTION IS PRESENTED AND DEBATED UNTIL ALL ARE CONSIDERED. THIS MAY BE DONE ALL AT ONCE OR DURING SEVERAL SUMMIT MEETINGS FOR THE EVENT.

See the following page with information regarding resolution rankings and instructions.

REGIONAL SUMMIT RESOLUTION RANKINGS

Ambassadors will rank resolutions of the following criteria below. For the purposes of GUNA 2021, each ambassador will be able to submit a ranking from regional summits.

- 1) Debatability
- 2) Creativity
- 3) Feasibility
- 4) International Importance
- 5) Preparation and Presentation

The chair will drop in your breakout chat discussion the google docs link to the ranking of resolutions. Please make sure you wait until the last resolution is debated before submitting your rankings.

RANKING OF THE RESOLUTIONS – Following the presentation and debate of all resolutions, the Chair will call on all nations represented (delegates) to rank the resolutions, with number one being poor, to number five being excellent. A ranking form will be provided to each voting member. The Chair and Clerk will then collect the rankings and will tally an average ranking for the committee.

Summit Chairman will be responsible for reporting committee rankings to the Clerk of the General Assembly at the beginning of the next General Assembly session. After Summit reports are heard, debate will begin on the resolutions in order of ranking. *Summits may only hear author speeches, and non-debatable technical questions if time is limited. Saving debate in full on resolutions for Floor debate in the General Assembly.

At our traditional Georgia United Nations Assembly Programs, Regional Summits (committees) are assigned into Regional Groups as organized by the United Nations. For the purposes of the fall 2021 Virtual Georgia United Nations Assembly (GUNA) Regional Summits, nations will be randomly assigned to committees to ensure that there is a balanced number of nations for debate.

Please see the following page for detailed Regional Summit Resolution assignments to committees. * You may see more numbers listed on the assignments page than there are actual resolutions in the book. If so, it is either because we did not receive all resolutions before going to print, or not every nation submitted a resolution for debate. The Summit Chair will notate the official resolutions up for debate in the committee before officially beginning.

5 them are radiation from nuclear testing sites, the shrinking of the Aral sea, and also
6 desertification of former agricultural land.
7 Kazakhstan has helped the world by giving oil and producing natural gas reserves. Our oil is
