GUNA REGIONAL SUMMIT AGENDA

Regional Summits/Group/Committees will not “pass” or “defeat” resolutions by voting them “favorable” or “unfavorable.” Instead, each summit will hear presentations and debate on all assigned resolutions. Then, the summits will rank the resolutions (by tally of individual nation members' rankings), with number one being poor, to number five being excellent. Summit members will be asked to rank resolutions based on the following five criteria: (for the purposes of virtual summits, amendments are not in order)

- 1) Debatability
- 2) Creativity
- 3) Feasibility
- 4) International Importance
- 5) Preparation and Presentation

Resolutions will then be considered by the General Assembly in the order that they were ranked in Summits, with each Summits' number one resolution being considered first, then number two, etc.

CALL TO ORDER – Summit Chair will call to order and appoint a clerk to assist with the handling of resolutions.

ANNOUNCEMENT OF RESOLUTIONS TO BE DISCUSSED – Chair announces which resolutions will be discussed during the meeting.

SPONSOR PRESENTS RESOLUTION – Chair calls for resolution sponsor to present resolution. Sponsor(s) will have five (5) minutes, or such time as determined by the chair for opening presentation.

CHAIR OPENS FLOOR FOR OPEN DISCUSSION OF RESOLUTION – Chair will open for discussion of resolution alternating favorable and unfavorable comments. Delegates may also ask questions of the resolution sponsor(s) at this time.

SPONSOR SUMMATION – Sponsor has three (3) minutes, or such time as the chair deems necessary for a brief summation to clarify any issues brought up in the summits debate.

EACH RESOLUTION IS PRESENTED AND DEBATED UNTIL ALL ARE CONSIDERED. THIS MAY BE DONE ALL AT ONCE OR DURING SEVERAL SUMMIT MEETINGS FOR THE EVENT.

See the following page with information regarding resolution rankings and instructions.

REGIONAL SUMMIT RESOLUTION RANKINGS

Ambassadors will rank resolutions of the following criteria below. For the purposes of GUNA 2021, each ambassador will be able to submit a ranking from regional summits.

- 1) Debatability
- 2) Creativity
- 3) Feasibility
- 4) International Importance
- 5) Preparation and Presentation

The chair will drop in your breakout chat discussion the google docs link to the ranking of resolutions. Please make sure you wait until the last resolution is debated before submitting your rankings.

RANKING OF THE RESOLUTIONS – Following the presentation and debate of all resolutions, the Chair will call on all nations represented (delegates) to rank the resolutions, with number one being poor, to number five being excellent. A ranking form will be provided to each voting member. The Chair and Clerk will then collect the rankings and will tally an average ranking for the committee.

Summit Chairman will be responsible for reporting committee rankings to the Clerk of the General Assembly at the beginning of the next General Assembly session. After Summit reports are heard, debate will begin on the resolutions in order of ranking. *Summits may only hear author speeches, and non-debatable technical questions if time is limited. Saving debate in full on resolutions for Floor debate in the General Assembly.

At our traditional Georgia United Nations Assembly Programs, Regional Summits (committees) are assigned into Regional Groups as organized by the United Nations. For the purposes of the fall 2021 Virtual Georgia United Nations Assembly (GUNA) Regional Summits, nations will be randomly assigned to committees to ensure that there is a balanced number of nations for debate.

Please see the following page for detailed Regional Summit Resolution assignments to committees. * You may see more numbers listed on the assignments page than there are actual resolutions in the book. If so, it is either because we did not receive all resolutions before going to print, or not every nation submitted a resolution for debate. The Summit Chair will notate the official resolutions up for debate in the committee before officially beginning.

SUBJECT: We aim to make Colombia a powerhouse in the world of agriculture. We expect to accomplish this by significantly increasing the production and exporting of bananas within the country. We hope to raise the standard of living of the Colombian people as the country suffers high levels of poverty and narco-terrorism through offering career opportunities with our agricultural expansion.

The Georgia United Nations General Assembly,

1 Considering Colombia's characteristics and agricultural potential, we consider bananas to be
2 a viable avenue towards raising our country out of poverty. By significantly expanding this
3 industry it can offer a way to bring more of our countries people into the workforce, as well
4 as luring individuals away from it's bustling narco-terrorism industry. When you think of
5 Columbia, you sure don't think of bananas, and our goal is to change that. With this grant,
6 we can make our first national fruit not only responsible for lifting our citizens out of poverty
7 but also suppressing the narco-terrorism industry.
8 By doubling the amount of plantation and distribution of bananas in Columbia; we will be
9 successful in raising citizens out of poverty while lowering the crime rate. The amount of
10 narco-terrorism and illicit drug trading in Colombia is staggering. It is well known that these
11 actions help to finance terrorism worldwide. Finally, the exporting of the banana will take
12 place within our country as well as countries that have a high demand for food, as our
13 product is relatively cheap and nourishing; which would aid the fight for world hunger.
14 Aware of the concern for if space would be an issue. However only 35% of Colombia is
15 developed. We plan to put the plantations in our undeveloped forests and near the high crime
16 districts such as, Bogota, Bonaventure, and Soacha as an al
17 Why? Wouldn't the cartels and criminals burn or take over the plantation? No, this is because
18 we will offer an incentive to everyone willing to go into the banana business. They will be
19 offered the chance for immunity while pursuing a promising career. With creating these new
20 plantations, comes many thousands of new jobs, thus raising Colombia's banana production
21 to number one in the world, and making bananas hopefully the number one produced fruit in
22 the world.
23 1. Requests that a \$200 million dollar grant be enacted, so that we can build our plantations,
24 lower the crime rates, work to minimize terrorism in the illicit drug trade (more on this in
25 clause #2), while increasing our production(bananas) exponentially.
26 2. Further request that the military force be hand and hand with the construction of our
27 establishments seeing as Colombia is immersed in an ongoing war with narco-terrorism. We
28 want to ensure that our plans can be enacted properly and safely as offering a different path
29 for Colombians could be faced with resistance from these cartels. We want to remedy this by
30 having a military force on site during and after construction to monitor any adverse actions
31 towards the improvements.
32 3. To attain our goals we will need the banana industry to double, as they are the main cog in
33 this system. You may ask, how are bananas gonna turn a big profit and reduce crime. With an
34 influx of capital,the banana industry will flourish with our production topping the charts and

1 putting Colombia on top as the leader in banana production. The more bananas we produce
2 the more we can export and put towards becoming the number one most produced fruit
3 worldwide. The enhanced distribution of the banana will take place within our country as
4 well as countries that have a high demand for food as our product is a cheap and nourishing
5 food. The more countries we supply the more money we can bring in and put towards
6 making Colombia a more flourishing and prosperous country.

7 4. We urge the United Nations to enact this resolution as soon as the passage has been
8 passed. The ongoing fight against narco-terrorism is a worldwide concern and can be
