CREATE YOUR OWN AMENDMENT DOMINOES

Directions:

1. Cut out your dominoes. Start by cutting the template in half and then cut out the individual dominoes. **Note: each domino is gray on one side and white on the other. This is a complete domino**.
2. Lay out the dominoes on your desk so that the gray of one domino is touching the white of another. Trust me – this will make creating your dominoes easier!
3. Choose **7 of the Bill of Rights** and **5 of the others** to create your dominoes.
4. Write the number of the amendments you chose on the **grey side** of your dominoes.
5. With the dominoes touching, put the **answer on the white side** of the domino that is **touching the grey side with the amendment number.** (See example below)
    - 6 of the ones you choose **must be illustrated** to represent the amendment.
    - The other 6 may have a description of the protections in the amendment.
6. You must concentrate and pay attention to what you are doing as you create your dominoes. It is easier if you lay them out on your desk so that they are touching and them putting your answers on them! **Trust Me!**

CREATE YOUR OWN AMENDMENT DOMINOES

Directions:

1. Cut out your dominoes. Start by cutting the template in half and then cut out the individual dominoes. **Note: each domino is gray on one side and white on the other. This is a complete domino**.
2. Lay out the dominoes on your desk so that the gray of one domino is touching the white of another. Trust me – this will make creating your dominoes easier!
3. Choose **7 of the Bill of Rights** and **5 of the others** to create your dominoes.
4. Write the number of the amendments you chose on the **grey side** of your dominoes.
5. With the dominoes touching, put the **answer on the white side** of the domino that is **touching the grey side with the amendment number.** (See example below)
    - 6 of the ones you choose **must be illustrated** to represent the amendment.
    - The other 6 may have a description of the protections in the amendment.
6. You must concentrate and pay attention to what you are doing as you create your dominoes. It is easier if you lay them out on your desk so that they are touching and them putting your answers on them! **Trust Me!**
